# WHY DENTISTS LOVE APTERYX IMAGING XVWEB

Is your practice due for a server refresh? Reimagine dental imaging with software that scales with your practice and is always up to date.

Cloud-Based

Access your patient x-rays anytime, anyplace, from anywhere. Easily view x-rays and consult across offices or around the globe.

COST SAVINGS

Are these recurring costs impacting your practice's bottom line?

With XVWeb, you can eliminate or significantly reduce costs associated with maintaining onsite servers and systems.

$ $5,000-$10,000 to replace servers every 3-5 years

$ server software, installation, and training costs

$ monthly maintenance, backups, software update costs, and technical support costs

Open-Architecture

Universal compatibility with all major imaging devices, sensors, and practice management solutions. Integrate with ease with XVWeb.
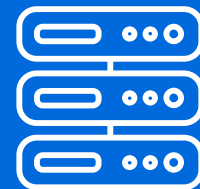

Secure Sharing Portal

XVWeb allows your practice to share clinical data securely using our HIPAA-compliant image portal. Streamline your referrals and consults.
