Digital Checklist:
How to Choose a Cloud-Based Dental Practice Management Solution

Ask solution providers these 10 questions when you're shopping for a cloud-based dental practice management solution.

BACKGROUND & SECURITY

- How long has your solution been in the cloud?
- How many clients do you have that use your solution?
- What security measures do you have in place to protect my data?

GROWTH & EFFICIENCY

- Will your solution enable me to consolidate applications?
- How will your solution help me operate my practice more efficiently and profitably?
- How will your solution help my dental practice grow?
- How does your solution help improve my patient's experience?

SUPPORT

- What does implementation and conversion look like, and do you offer training?
- How is your solution priced? Do I have to pay for upgrades, backups, or support?
- What type of technical and user support do you offer?
