Apteryx Cloud Imaging
Security Benefits

Apteryx Cloud Imaging is securely backed by Microsoft Azure to ensure your data is safely hosted. With Azure's multiple layer protection, your data is protected against cyberattacks, natural disasters, theft, and loss.

With Apteryx, you remain the owner of your data.

Using a secure data transfer protocol, Apteryx communicates through data networks with HTTPS connections. With the highest level of data security, your information can be shared through a HIPAA compliant sharing portal.

Benefits of Apteryx Cloud Imaging

✓ **Secure access through username or password authentication**
