

Morning Huddle Dashboard

START YOUR DAY WITH ACTIONABLE INSIGHTS

Denticon's Morning Huddle is an easy-to-use dashboard that provides a high-level overview of production goals to provide actionable data insights to help drive dental business growth.

These actionable insights will enable you to maximize revenue opportunities by increasing collections, boosting production, and mastering the art of scheduling.

Morning Huddle provides a comprehensive summary of the current day's schedule, the previous day's performance, and KPI progress tracking in relation to the previous month and current year. Data can be pulled by office group, location, or provider, and you can pull reports for collections, patient exams, scheduling opportunities, and much more.

- ✓ **Save time and unify your practice data**
- ✓ **Easy-to-use data reporting and analytics**
- ✓ **Discover growth opportunities & keep a schedule full**
- ✓ **Boost transparency across all locations**

Visual Data Dashboards & Reports

Easy-to-read dashboards give views into valuable data while tracking your progress.

Convenient data drill-down and filters

Dive into practice data for a deeper understanding of all your important metrics for success. Quickly manipulate and filter data by practice location or group, provider type, provider name, date range, and more.

Track and Measure KPIs

Set goals and monitor progress across your dental organization. Quickly identify when goals are off target and make data-informed decisions to ensure practices get back on track.
