

DentalOS® AI Agents

AN AI WORKFORCE FOR YOUR FRONT DESK
BUILT INTO DENTICON AND SOON CLOUD 9

The average dental practice loses **more than \$150,000** per provider per year to no-shows—and **36% of patients** who miss appointments simply forgot. Text reminders aren't enough, and front desk teams don't have the bandwidth to follow up consistently across every location. **DentalOS® AI Agents** are autonomous AI workers that connect to Denticon and soon Cloud 9, proactively confirming appointments and scheduling patients using live practice data—so organizations can scale operations without scaling headcount.

THE CHALLENGES YOU FACE	HOW DENTALOS AI AGENTS SOLVE THEM
Front desk teams can't keep up with outbound confirmation calls.	 The Confirmation Agent places calls automatically within a configurable window—no staff initiation needed.
Recall lists and unscheduled treatment go unworked for weeks.	 The Recall Agent proactively makes outbound calls to overdue and upcoming recall patients.
Cancelled appointments leave chair time that never gets recovered.	 The Cancellation Rescheduling Agent reaches out to the patient that cancelled to rebook a new appointment.
No-shows quietly become lost patients with no follow-up.	 The Missed Rescheduling Agent follows up after a missed visit with a warm, no-pressure call and books a new time directly into your schedule.

DentalOS AI Agents: The Front Desk AI Workforce

Real-Time PMS Write-Back

Every confirmation, reschedule, and booking updates Denticon or soon Cloud 9 instantly. No manual entry. No second system.

Consistent Execution Across Every Location

Every agent runs the same workflow, with the same rules, at every location from day one. No per-site setup, no inconsistent execution.

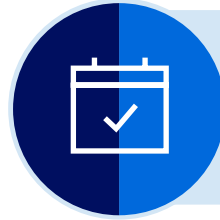

Compliant by Design

Identity verification before PHI. Consent and office-hours enforcement. HIPAA-safe voicemail. Full audit trail on every interaction.

15 to 30%

60 to 75%

FEWER HOURS
on manual confirmations

Confirmation Agent

Automatically confirms upcoming appointments via outbound calls within a configurable window. Reschedules in the same call when needed.

Cancellation Rescheduling Agent

Works Denticon's nightly cancellation list to reach out before the slot goes cold, and rebooks the moment the patient accepts.

Recall Agent

Calls overdue and upcoming recall patients automatically and books them directly into the schedule.

Missed Rescheduling Agent

Follows up on no-shows with a warm, low-pressure call and books a new time directly into Denticon.
